## ***Description***

- The number of the variables can likely be different within the same kind of data file across different years
- This document only includes the variables of PEIMS-Student data files
- This file would be updated when new variable(s) is added in the new data files.
- TEA provides two kinds of Attendance data files
  - Unique combination of district and student (O:\data\tsp\_erc\tea\peims\student\attend)
  - Unique combination of campus of enrollment, student, grade, six-week reporting period, and instructional track (O:\data\tsp\_erc\tea\peims\student\attend\attend\_six)
- In TSP-ERC, **dropout** data is named “dropYYYY.dta”, **graduate** data is named “gradYYYY.dta”, and **other exit** data is named “leaverYYYY”
