ERC and TACC: Bringing the Technology to You

- The ERC is able to offer the latest remote technology and a secure data repository to education researchers across the U.S., thanks to our partnership with TACC – the Texas Advanced Computing Center, located at UT Austin.
- TACC houses and operates the fastest supercomputer at any U.S. university and the fifth most powerful in the world.
- Cutting-edge researchers can rely on TACC computing experts and ERC data resources to help them gain insights and make discoveries that change the world.
